

Yamaha FJR-1300 Part No. NU 3228KIT

WARNING –FILTER FOAM(S) MUST BE OILED PRIOR TO USE.

FITTING INSTRUCTIONS

After first oiling, fit filter and ensure that the blank end of the filter is located over the short locating spigot at the far end of the air box.

OBSERVE this spigot before fitting the element to the air box and ensure that the filter is located on this spigot before attempting to put the air box cover in place.

The air box cover must go right home to the air box sealing face with light finger pressure before fastening with air box screws.

Air box screws must not be used to force the end cover into place.

SERVICING & RE-OILING

Wash the filter in **mineral turps**, pad dry with a soft, absorbent cloth and re-oil. Conventional filter oils such as Unifilter's "*Filter Fix*" or Belray are recommended.
