UNI FILTER - Air filters that work!

About Unifilter Australia

Unifilter Australia is a totally Australian-owned and family run company which started as an importer of the USA-manufactured UNI Filter brand in 1976.

By 1988, the company had ceased importing and the *UNIFILTER* product had become a totally Australian-made brand using only Australian-made raw materials to produce what is now Australia's, and one of the world's, largest ranges of automotive, 4x4, ATV and motorcycle air filters.

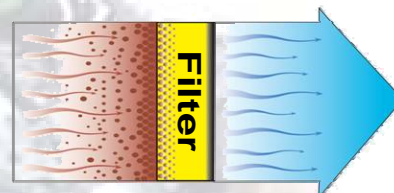

During 2003, Unifilter also acquired the *Finer Filter* and *O₂Rush* brands with the object of expanding its already strong export market. Whilst the *UNIFILTER*, *Finer Filter* and *O₂Rush* brand names are well known in the automotive market place, our manufacturing also extends to original equipment filters for Ford Motor Company, Holden, Yamaha and Stihl, as well as after-market production for Redline brand in Australia and Pass Filter in Japan.

Unifilter Australia employs 20 people in its Central Coast factory supplying, on average, in excess of 13,000 filters per month and growing all the time.

How our air filters work

To duplicate the world's best air filter - the human nose - Unifilter uses open cell, polyurethane foam to achieve the high level of efficiency required by today's high quality engineered engines.

The open cell polyurethane foam provides excellent air flow and - combined with foam filter treatment - the best filtration obtainable in any automotive air filter. Add to this the fully-reusable factor of polyurethane foam and you have the best air filter money can buy.

FILTER TYPE	AIR FLOW	DUST RETENTION	REUSABLE	AUST MADE
Paper	As a base rating	30 µm	No	Some
Oiled Paper	2% more restrictive	18 µm	No	Some
Cotton Gauze*	25% less restrictive	45 µm	Yes	No
Unifilter Foam	24% less restrictive	4 µm	Yes	Yes

**NOTE - The world's leading manufacturer of cotton gauze filters recommends oiled foam outers when used in dusty conditions.*

Our Capabilities

In addition to its motorcycle and ATV air filter range, Unifilter also manufactures a full range of foam air filters for automotive, 4x4, commercial vehicle, heavy vehicle, marine, construction, mining and agricultural machinery, etc – in fact, anything powered by an internal combustion engine. Contact Unifilter direct to discuss your particular requirements.

Unifilter also applies its design and manufacturing expertise to the wider commercial and industrial markets in the production of a diverse range of air filtration solutions where particulate retention to very low micron levels is of paramount importance. Couple this with the reusability and cost-effectiveness of its foam filter technology and it's not surprising that more and more users are finding Unifilter air filtration solutions the best decision they can make. Unifilter can design a solution for you too – contact us today to discuss your needs.

ProComp2 - Dirt Bike Filters & Combo Packs

- Professional two-stage filter for the serious Enduro rider & "Weekend Warrior"
- Improved air flow
- Improved power
- Improved protection
- Supplied dry – require oiling before use

Convenient and economical **Combo Packs** available for serious **Enduro** users & "Weekend Warriors". Packs include the famous **ProComp2** replacement filter plus everything required to perform regular filter maintenance either at home or "out on the track". Comprises:

- 5L storage/cleaning bucket
- **ProComp2** replacement filter
- Spare second/outer stage foam
- 250ml "Filter Fix" filter oil
- 250ml "Foam Air Filter Cleaner"
- 100g filter sealing grease
- Protective gloves and cloth
- Instructions

- High Performance Race Filters & Race Packs

- Fully reusable high performance race filters for SX, MX, Supermotard & Freestyle
- Unique sawtooth design for increased surface area
- Improved airflow - More power
- Improved throttle response
- Improved cage sealing – “Ultra Soft Seal” technology
- Supplied dry – require oiling before use
- Available in Colours. Filters supplied in blue except filters with (*) after part#.

Convenient and economical **Race Packs** available for SX, MX, Supermotard and Freestyle users. Packs include the famous **O2RUSH** replacement filter plus everything required to perform regular filter maintenance either at home or "at the track". Comprises:

- 5L storage/cleaning bucket
- 2 x **O2RUSH** replacement filters
- 250ml "Filter Fix" filter oil
- 250ml "Foam Air Filter Cleaner"
- 100g filter sealing grease
- Protective gloves and cloth
- Instructions

Offroad Motorcycle & ATV Accessories

Let your bike breath better with Unifilter's O2RUSH breather kits. Designed to allow more air into your bike's intake system while, at the same time, keeping the crap out! Kits include a piece of high flow foam, a piece of lightweight aluminum and six nuts and bolts to attach it to your air box/side cover.

Breather Kits

Breather Pods

Bike Mask

Exhaust Bung

Description	Part No	Price Group
Breather Kit (Red or black foam)	O2R-BREATHER KIT	12
Breather Pod (Red or black foam) - Same concept as for our Breather Kit but for when space is at a premium. Requires 60mm hole drilled in air box/side cover. Supplied in pack of 2 in either red or black foam.	O2R-BREATHER POD	12
Mini Breather Pod - Same concept as for our Breather Pod but for when space really is at a premium! Requires 25mm hole drilled in air box/side cover. Supplied in pack of 3 in either red or black foam.	O2R BREATHER POD MINI	5
Foam protective bike mask - For when the breathing gets heavy. Manufactured from the same high quality, high flow foam as our famous air filters! Remember - what goes into your bike's engine, is also going into yours! Available in yellow only. (Goggles not included!)	O2R MASK	7
Exhaust Bung - A reversible, polyurethane exhaust bung to suit either 2 or 4 stroke motors. Provides protection against ingress of water and contaminants during washdown and travelling. Available in either yellow, blue, red or black.	O2R-EXH BUNG	5

UNI FILTER – Road Bike Replacement Elements

- Replacement foam filters for most popular makes and models
- Improved airflow
- Improved power
- Improved protection
- Supplied dry – require oiling before use

UNI FILTER - Road Bike Rebuilds

We can re-build your original air filters. If your bike uses a filter we don't manufacture, you can send us an old housing and we can convert the filter into a two stage re-usable air filter. Please call us to make sure we can rebuild your air filter before sending the housing.

UNI FILTER - Road Bike Pods & Pod Kits

- Replacement foam pods and pod kits
- Improved air flow
- Improved power
- Improved protection
- Supplied dry – require oiling before use

FFCLEAN 5	5 Litre	22

Foam Filter Servicing

The Basics – Road Bikes

- Inspect filter every 5,000kms (1,500kms in harsh conditions). Check that filter is not drying out.
- Service filter every 20,000kms in normal conditions (every 5,000kms in harsh conditions).

The Basics – Dirt Bikes

- Inspect filter before/after every use. Check that filter is not drying out.
- Clean and re-oil filter as necessary according to instructions.
- Apply a light coating of grease between air filter seal and airbox.

Cleaning (Use either of the following methods)

- Using **mineral turps only** (the only safe solvent cleaner), wash out filter foam/s, pad dry and re-oil, or;
- Using Unifilter “Foam Filter Cleaner” apply neat to foam/s and work through thoroughly. Rinse out at least 2 or 3 times in clean water to ensure all cleaning fluid has been thoroughly removed. Pad dry and re-oil.

Re-Oiling

- Use Unifilter “Filter Fix” oil treatment. Warm oil is preferable.
- Pour *Filter Fix* into a suitable container and work treatment thoroughly into foams. Squeeze out foams until only a minimal amount of treatment remains. It should only be possible to produce oil treatment on your fingers by pinching the foam. You cannot remove too much oil when using this method. **Never over oil/treat.**

UNI FILTER – Speedway Filters

Kit includes cage, inner foam and two outer foams

Warranty

Unifilter Australia warrants that the filter supplied is free from defects in workmanship and material. Unless subject to abuse, neglect, incorrect fitment or other circumstances beyond the control of Unifilter Australia, then the filter will be replaced without cost for a period of one (1) year from the date of purchase in the case of dirt bike/ATV filters and three (3) years from the date of purchase for all other filters.
