INSTALLATION & MAINTENANCE INSTRUCTIONS

Part No: NU-3703

Triumph Tiger 800XC 2011 Pre-Cleaner

Unifilter's NU-3703 is a pre-cleaner designed to replace the original intake snorkel on the 2011 Triumph Tiger 800XC. This pre-cleaner has two main benefits. The first is to increase the service life of the main filter. This pre-cleaner will remove 95% of the dust before it reaches the main filter. The second benefit of the pre-cleaner is it is easy to remove and service. The main filter is situated under the fuel tank and is very time consuming to change. This pre-cleaner can be removed and serviced in approximately 10 minutes.

FITTING INSTRUCTIONS

1. Remove the seat.
2. Remove the intake snorkel from the air box.
3. Push the rubber base of the pre-cleaner into the hole of the air box where the intake snorkel used to locate.
4. Re-fit the seat and you are now ready to go.

NOTE – Filter is supplied pre-oiled.
